## Increase of Measles Cases in Ontario

May 13, 2019

- **No cases in Peterborough**
- **10 confirmed cases in Ontario**
- **90% associated with International Travel**

- ✓ Immunization is the best way to protect against measles.
- ✓ Individuals travelling outside of North America should ensure they are adequately protected.

If you have recently travelled or have been in contact with a case of measles AND developed fever and rash and other measles symptoms,

**Please Call Your Health Care Provider**

to arrange an appointment for an assessment.
